# The Race is On

Mickey strolled down the garden path with Pluto's breakfast in hand, whistling cheerfully in the morning sun.

"Hi-ya, Pluto!" he called as he approached the dog house. "Look what I have for you here..."

His voice trailed off as he noticed that the dog house was empty. A piece of paper pinned to the front of the dog house showed a picture of Pluto locked in the back of a van, surrounded by several grinning Weasels. Mickey gasped and quickly scanned the writing above the picture:

"Hey, mouse! We have your dog and his diamond collar! Just try to catch us! Ha, ha, ha!"

This was terrible! They'd dognapped Pluto for his collar? There was no telling how long they'd been gone, and Mickey knew that he had to recruit some help as soon as possible. He called his friends right away.

"Hey, everybody! The Weasels took Pluto! Meet me at Ludwig's shop. We have to get the racecars and go after him!"

"That's awful!" gasped Daisy.

"Wait for me," quacked Donald.

"Oh, my!" declared Minnie.

And when it came to a common enemy like the Weasels, even mean old Pete wanted in on the action. "Weasels. Ha-ha!" he snorted.

"Don't worry, Mickey," Goofy reassured his troubled friend. "We'll get him back."

Minutes later, they all met down at Ludwig Von Drake's workshop, where the cars were ready and waiting. "Now remember, I'll be with you to give you extra power for your cars," Ludwig promised as they hopped eagerly into their drivers' seats. "Good luck!"

## The Main Menu

Properly insert the Game Pak into your Game Boy Color system and turn the power ON. When the Title Screen appears, press START to go to the Main Menu.

On the Main Menu Screen, use the + Control Pad to highlight a mode, then press the A Button to make your selection.

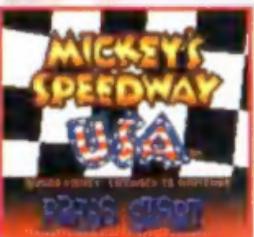

**1-Player Game:** Race across the country in search of the Weasels and Mickey's best pal Pluto.

**2-Player Game:** Use a Game Link® cable (sold separately) to compete against a friend.

**Time Trial:** Try for the fastest time possible, without all the distractions of power-ups or other racers on the track.

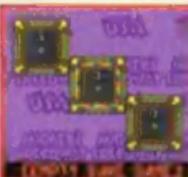

**Driving School:** Practice your driving skills by taking Professor Von Drake's tests.

**Extras:** View your trophies, postcards and any other little souvenirs you pick up along the way.

## 1-Player Game

You can save up to three games in this single-player mode. Choose one of the three disks that appear on the screen shown on the right. Each time you complete a race or driving test, your game will automatically be saved to that disk.

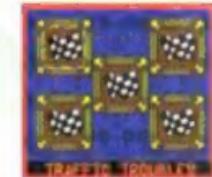

If you choose an empty disk, you'll need to enter your initials. Press ← and → on the + Control Pad to rotate the letter wheel. Press the A Button to select a letter or the B Button to remove a letter. When you are finished, rotate the wheel to END or press START. After that you must choose a difficulty level.

Next, press ← and → on the + Control Pad to rotate the character wheel, then press the A Button to see the chosen character's statistics. If you want to use that character, press the A Button again to get started. If not, press the B Button to return to the character wheel.

Finally, choose the circuit that you want to race. Only Traffic Troubles will be available at first. You must complete this circuit before you can race on to the next one.

You'll receive a certain number of points based on how you place in each race. The totals for each of the four races will be added together to determine the overall winner of the circuit. If you place first, second or third overall, you'll win a trophy and be able to race in the next circuit.

## Racing Tips

- To get a Turbo Start at the beginning of a race, press the A Button just after the third light on the starting grid changes.
- For a more effective attack, use the Stormy Weather pick-up just before your opponents enter a curve.
- When going over bridges and ramps, press  $\uparrow$  on the + Control Pad to adjust your car's landing angle. This will give you a smoother landing, helping you maintain your speed.
- Use the Carbo Spritzer pick-up in straightaways to avoid crashing full-speed into walls.
- Avoid bumping into the other racers. Colliding with another car will most likely slow you down and may even give your opponent a little speed boost.
